The names are Luminor Panerai, Frank Mueller, Cartier, - I can't think of the others. The bands I think are real leather (but you cannot always tell) some are on metal bands + I paid roughly 20 dollars ec for them(some were more some less - some fake brands cost more etc!). I think they were asking roughly 50 for ec if not more per watch but as I bought so many (100 which I have already given away) I got such a good price. They are mostly mens watches as I personally like big watches but it is a mixture of both mens and womens.

What is really good about these watches is that they are very heavy which makes people think that they are real. I cannot tell you the no. of people that tried mine on as they think it is a real one to see if they want to buy one too!
Anyway - thanks again - let me know how you get on

read the brand names.   Are all of these women's or are some of them men's
watches? Great looking watches. We go to China on Sunday so I'll see what
I can do there. I'll let you know. Nancy

watches. Please let me know how much I owe you and how you think I should
collect them off you

Thank you again
