Although a money market mutual fund seeks to preserve the value of your investment at \$1 per share, it is possible to lose money by investing in a money market mutual fund. Shares of a money market mutual fund or the balance of a bank deposit product held in your brokerage account may be liquidated upon request with the proceeds credited to your brokerage account. Please see the money market mutual fund's prospectus or the bank deposit product's disclosure document or contact your advisor for additional information. Pursuant to SEC Rule 10b-10(b)(1) confirmations are not sent for purchases into money market mutual funds processed on the sweep platform.

Federal Deposit Insurance Corporation (FDIC)-Insured Bank Deposits are not protected by Securities Investor Protection Corporation(SIPC).

For disclosure of rates for DWS money market funds, please visit the DWS Investments website at <https://www.dws-investments.com/EN/products/money-market-funds-yields.jsp> Please note that all money market funds listed on the website may not be offered through us.

The U.S. will adopt a shortened settlement timeframe beginning with trade date September 5, 2017, for equities, corporate and municipal bonds, and unit investment trusts. Moving from a T+3 to a T+2 settlement cycle will provide faster access to sale proceeds, but it also means that funds will be due on purchase transactions earlier. This may be a good time to consider e-delivery of your account documents-including trade confirmations, account statements and more. Ask your advisor about how you can set up e-delivery.

Important Information and Disclosures

Pricing

This section includes the net market value of the securities in your account on a settlement date basis, including short positions, at the close of the statement period. The market prices, unless otherwise noted, have been obtained from independent vendor services, which we believe to be reliable. Market prices do not constitute a bid or an offer, and may differ from the actual sale price. Securities for which a price is not available are marked "N/A" and are omitted from the Total.

THE AS OF PRICE DATE ONLY APPEARS WHEN THE PRICE DATE DOES NOT EQUAL THE STATEMENT DATE.

The pricing of securities on this statement may vary from their actual liquidation value. Prices shown should only be used as a general guide to portfolio value. Cash shown in this statement may not necessarily be available for investment due to unsettled transactions against your account(s). Prices for marketable securities are received from various pricing services thought to be reliable; however, pricing services are sometimes unable to provide timely information. Where pricing sources are not readily available, estimated prices may be used. When the updated price is received from the price provider, the updated price will be used in the release of the current month's statement. Prior statements will not be revised. You should always request a current valuation for your securities prior to making a financial decision or placing an order.

Deutsche Bank proprietary investments and miscellaneous assets held by Discretionary Accounts, Trust Accounts and Custody Accounts include several categories of securities. Miscellaneous foreign assets are priced via third party sources believed to be reliable.

For certain securities, including thinly-traded securities, debt securities in default, securities that do not have a valid pricing source, and certain third-party structured products, the last available pricing will be listed. If the last price available for such securities is unchanged for a period of time deemed appropriate for that asset, the current price will purge and N/A will be placed in the price field in the statement. The pricing of listed options takes into account the last closing price, as well as the current bid and offer prices.

Estimated Annual Figures

The estimated annual income (EAI) and estimated annual yield (EAY) figures are estimates and for informational purposes only. These figures are not considered to be a forecast or guarantee of future results. These figures are computed using information from providers believed to be reliable; however, no assurance can be made as to the accuracy. Since interest and dividend rates are subject to change at any time, and may be affected by current and future economic, political, and business conditions, they should not be relied on for making investment, trading, or tax decisions. These figures assume that the position quantities, interest and dividend rates, and prices remain constant. A capital gain or return of principal may be included in the figures for certain securities, thereby overstating them. Refer to www.pershing.com/business_continuity.html for specific details as to formulas used to calculate the figures. Accrued interest represents interest earned but not yet received.

Proxy Vote

Securities not fully paid for in your margin account may be lent by Pershing to itself or others in accordance with the terms outlined in the Margin Agreement. The right to vote your shares held on margin may be reduced by the amount of shares on loan. The Proxy Voting Instruction Form sent to you may reflect a smaller [REDACTED] of shares entitled to vote than the [REDACTED] of shares in your margin account.

Foreign Currency Transactions

Pershing may execute foreign currency transactions as principal for your account. Pershing may automatically convert foreign currency to or from U.S. dollars for dividends and similar corporate action transactions unless you instruct your financial organization otherwise. Pershing's currency conversion rate will not exceed the highest interbank conversion rate identified from customary banking sources on the conversion date or the prior business day, increased by up to 1%, unless a particular rate is required by applicable law. Your financial organization may also increase the currency conversion rate. This conversion rate may differ from rates in effect on the date you executed a transaction, incurred a charge, or received a credit. Transactions converted by agents (such as depositories) will be billed at the rates such agents use.

Pricing

This section includes the net market value of the securities in your account on a settlement date basis, including short positions, at the close of the statement period. The market prices, unless otherwise noted, have been obtained from independent vendor services, which we believe to be reliable. Market prices do not constitute a bid or an offer, and may differ from the actual sale price. Securities for which a price is not available are marked "N/A" and are omitted from the Total.

THE AS OF PRICE DATE ONLY APPEARS WHEN THE PRICE DATE DOES NOT EQUAL THE STATEMENT DATE.

The pricing of securities on this statement may vary from their actual liquidation value. Prices shown should only be used as a general guide to portfolio value. Cash shown in this statement may not necessarily be available for investment due to unsettled transactions against your account(s). Prices for marketable securities are received from various pricing services thought to be reliable; however, pricing services are sometimes unable to provide timely information. Where pricing sources are not readily available, estimated prices may be used. When the updated price is received from the price provider, the updated price will be used in the release of the current month's statement. Prior statements will not be revised. You should always request a current valuation for your securities prior to making a financial decision or placing an order.

Deutsche Bank proprietary investments and miscellaneous assets held by Discretionary Accounts, Trust Accounts and Custody Accounts include several categories of securities. Miscellaneous foreign assets are priced via third party sources believed to be reliable.

For certain securities, including thinly-traded securities, debt securities in default, securities that do not have a valid pricing source, and certain third-party structured products, the last available pricing will be listed. If the last price available for such securities is unchanged for a period of time deemed appropriate for that asset, the current price will purge and N/A will be placed in the price field in the statement. The pricing of listed options takes into account the last closing price, as well as the current bid and offer prices.

Estimated Annual Figures

The estimated annual income (EAI) and estimated annual yield (EAY) figures are estimates and for informational purposes only. These figures are not considered to be a forecast or guarantee of future results. These figures are computed using information from providers believed to be reliable; however, no assurance can be made as to the accuracy. Since interest and dividend rates are subject to change at any time, and may be affected by current and future economic, political, and business conditions, they should not be relied on for making investment, trading, or tax decisions. These figures assume that the position quantities, interest and dividend rates, and prices remain constant. A capital gain or return of principal may be included in the figures for certain securities, thereby overstating them. Refer to www.pershing.com/business_continuity.html for specific details as to formulas used to calculate the figures. Accrued interest represents interest earned but not yet received.

Proxy Vote

Securities not fully paid for in your margin account may be lent by Pershing to itself or others in accordance with the terms outlined in the Margin Agreement. The right to vote your shares held on margin may be reduced by the amount of shares on loan. The Proxy Voting Instruction Form sent to you may reflect a smaller [REDACTED] of shares entitled to vote than the [REDACTED] of shares in your margin account.

Important Information and Disclosures

Pricing

This section includes the net market value of the securities in your account on a settlement date basis, including short positions, at the close of the statement period. The market prices, unless otherwise noted, have been obtained from independent vendor services, which we believe to be reliable. Market prices do not constitute a bid or an offer, and may differ from the actual sale price. Securities for which a price is not available are marked "N/A" and are omitted from the Total.

THE AS OF PRICE DATE ONLY APPEARS WHEN THE PRICE DATE DOES NOT EQUAL THE STATEMENT DATE.

The pricing of securities on this statement may vary from their actual liquidation value. Prices shown should only be used as a general guide to portfolio value. Cash shown in this statement may not necessarily be available for investment due to unsettled transactions against your account(s). Prices for marketable securities are received from various pricing services thought to be reliable; however, pricing services are sometimes unable to provide timely information. Where pricing sources are not readily available, estimated prices may be used. When the updated price is received from the price provider, the updated price will be used in the release of the current month's statement. Prior statements will not be revised. You should always request a current valuation for your securities prior to making a financial decision or placing an order.

Deutsche Bank proprietary investments and miscellaneous assets held by Discretionary Accounts, Trust Accounts and Custody Accounts include several categories of securities. Miscellaneous foreign assets are priced via third party sources believed to be reliable.

For certain securities, including thinly-traded securities, debt securities in default, securities that do not have a valid pricing source, and certain third-party structured products, the last available pricing will be listed. If the last price available for such securities is unchanged for a period of time deemed appropriate for that asset, the current price will purge and N/A will be placed in the price field in the statement. The pricing of listed options takes into account the last closing price, as well as the current bid and offer prices.

Estimated Annual Figures

The estimated annual income (EAI) and estimated annual yield (EAY) figures are estimates and for informational purposes only. These figures are not considered to be a forecast or guarantee of future results. These figures are computed using information from providers believed to be reliable; however, no assurance can be made as to the accuracy. Since interest and dividend rates are subject to change at any time, and may be affected by current and future economic, political, and business conditions, they should not be relied on for making investment, trading, or tax decisions. These figures assume that the position quantities, interest and dividend rates, and prices remain constant. A capital gain or return of principal may be included in the figures for certain securities, thereby overstating them. Refer to www.pershing.com/business_continuity.html for specific details as to formulas used to calculate the figures. Accrued interest represents interest earned but not yet received.

Proxy Vote

Securities not fully paid for in your margin account may be lent by Pershing to itself or others in accordance with the terms outlined in the Margin Agreement. The right to vote your shares held on margin may be reduced by the amount of shares on loan. The Proxy Voting Instruction Form sent to you may reflect a smaller [REDACTED] of shares entitled to vote than the [REDACTED] of shares in your margin account.

Such forbearance to enforce an agreement to arbitrate shall not constitute a waiver of any rights under this agreement except to the extent stated herein. The laws of the State of New York govern.

Important Information and Disclosures

Pricing

This section includes the net market value of the securities in your account on a settlement date basis, including short positions, at the close of the statement period. The market prices, unless otherwise noted, have been obtained from independent vendor services, which we believe to be reliable. Market prices do not constitute a bid or an offer, and may differ from the actual sale price. Securities for which a price is not available are marked "N/A" and are omitted from the Total.

THE AS OF PRICE DATE ONLY APPEARS WHEN THE PRICE DATE DOES NOT EQUAL THE STATEMENT DATE.

The pricing of securities on this statement may vary from their actual liquidation value. Prices shown should only be used as a general guide to portfolio value. Cash shown in this statement may not necessarily be available for investment due to unsettled transactions against your account(s). Prices for marketable securities are received from various pricing services thought to be reliable; however, pricing services are sometimes unable to provide timely information. Where pricing sources are not readily available, estimated prices may be used. When the updated price is received from the price provider, the updated price will be used in the release of the current month's statement. Prior statements will not be revised. You should always request a current valuation for your securities prior to making a financial decision or placing an order.

Deutsche Bank proprietary investments and miscellaneous assets held by Discretionary Accounts, Trust Accounts and Custody Accounts include several categories of securities. Miscellaneous foreign assets are priced via third party sources believed to be reliable.

For certain securities, including thinly-traded securities, debt securities in default, securities that do not have a valid pricing source, and certain third-party structured products, the last available pricing will be listed. If the last price available for such securities is unchanged for a period of time deemed appropriate for that asset, the current price will purge and N/A will be placed in the price field in the statement. The pricing of listed options takes into account the last closing price, as well as the current bid and offer prices.

Estimated Annual Figures

The estimated annual income (EAI) and estimated annual yield (EAY) figures are estimates and for informational purposes only. These figures are not considered to be a forecast or guarantee of future results. These figures are computed using information from providers believed to be reliable; however, no assurance can be made as to the accuracy. Since interest and dividend rates are subject to change at any time, and may be affected by current and future economic, political, and business conditions, they should not be relied on for making investment, trading, or tax decisions. These figures assume that the position quantities, interest and dividend rates, and prices remain constant. A capital gain or return of principal may be included in the figures for certain securities, thereby overstating them. Refer to www.pershing.com/business_continuity.html for specific details as to formulas used to calculate the figures. Accrued interest represents interest earned but not yet received.

Proxy Vote

Securities not fully paid for in your margin account may be lent by Pershing to itself or others in accordance with the terms outlined in the Margin Agreement. The right to vote your shares held on margin may be reduced by the amount of shares on loan. The Proxy Voting Instruction Form sent to you may reflect a smaller [redacted] of shares entitled to vote than the [redacted] of shares in your margin account.

The pricing of securities on this statement may vary from their actual liquidation value. Prices shown should only be used as a general guide to portfolio value. Cash shown in this statement may not necessarily be available for investment due to unsettled transactions against your account(s). Prices for marketable securities are received from various pricing services thought to be reliable; however, pricing services are sometimes unable to provide timely information. Where pricing sources are not readily available, estimated prices may be used. When the updated price is received from the price provider, the updated price will be used in the release of the current month's statement. Prior statements will not be revised. You should always request a current valuation for your securities prior to making a financial decision or placing an order.

Deutsche Bank proprietary investments and miscellaneous assets held by Discretionary Accounts, Trust Accounts and Custody Accounts include several categories of securities. Miscellaneous foreign assets are priced via third party sources believed to be reliable.

For certain securities, including thinly-traded securities, debt securities in default, securities that do not have a valid pricing source, and certain third-party structured products, the last available pricing will be listed. If the last price available for such securities is unchanged for a period of time deemed appropriate for that asset, the current price will purge and N/A will be placed in the price field in the statement. The pricing of listed options takes into account the last closing price, as well as the current bid and offer prices.

Estimated Annual Figures

The estimated annual income (EAI) and estimated annual yield (EAY) figures are estimates and for informational purposes only. These figures are not considered to be a forecast or guarantee of future results. These figures are computed using information from providers believed to be reliable; however, no assurance can be made as to the accuracy. Since interest and dividend rates are subject to change at any time, and may be affected by current and future economic, political, and business conditions, they should not be relied on for making investment, trading, or tax decisions. These figures assume that the position quantities, interest and dividend rates, and prices remain constant. A capital gain or return of principal may be included in the figures for certain securities, thereby overstating them. Refer to www.pershing.com/business_continuity.html for specific details as to formulas used to calculate the figures. Accrued interest represents interest earned but not yet received.

Proxy Vote

Securities not fully paid for in your margin account may be lent by Pershing to itself or others in accordance with the terms outlined in the Margin Agreement. The right to vote your shares held on margin may be reduced by the amount of shares on loan. The Proxy Voting Instruction Form sent to you may reflect a smaller [redacted] of shares entitled to vote than the [redacted] of shares in your margin account.

Important Information and Disclosures

Pricing

This section includes the net market value of the securities in your account on a settlement date basis, including short positions, at the close of the statement period. The market prices, unless otherwise noted, have been obtained from independent vendor services, which we believe to be reliable. Market prices do not constitute a bid or an offer, and may differ from the actual sale price. Securities for which a price is not available are marked "N/A" and are omitted from the Total.

THE AS OF PRICE DATE ONLY APPEARS WHEN THE PRICE DATE DOES NOT EQUAL THE STATEMENT DATE.

The pricing of securities on this statement may vary from their actual liquidation value. Prices shown should only be used as a general guide to portfolio value. Cash shown in this statement may not necessarily be available for investment due to unsettled transactions against your account(s). Prices for marketable securities are received from various pricing services thought to be reliable; however, pricing services are sometimes unable to provide timely information. Where pricing sources are not readily available, estimated prices may be used. When the updated price is received from the price provider, the updated price will be used in the release of the current month's statement. Prior statements will not be revised. You should always request a current valuation for your securities prior to making a financial decision or placing an order.

Deutsche Bank proprietary investments and miscellaneous assets held by Discretionary Accounts, Trust Accounts and Custody Accounts include several categories of securities. Miscellaneous foreign assets are priced via third party sources believed to be reliable.

For certain securities, including thinly-traded securities, debt securities in default, securities that do not have a valid pricing source, and certain third-party structured products, the last available pricing will be listed. If the last price available for such securities is unchanged for a period of time deemed appropriate for that asset, the current price will purge and N/A will be placed in the price field in the statement. The pricing of listed options takes into account the last closing price, as well as the current bid and offer prices.

Estimated Annual Figures

The estimated annual income (EAI) and estimated annual yield (EAY) figures are estimates and for informational purposes only. These figures are not considered to be a forecast or guarantee of future results. These figures are computed using information from providers believed to be reliable; however, no assurance can be made as to the accuracy. Since interest and dividend rates are subject to change at any time, and may be affected by current and future economic, political, and business conditions, they should not be relied on for making investment, trading, or tax decisions. These figures assume that the position quantities, interest and dividend rates, and prices remain constant. A capital gain or return of principal may be included in the figures for certain securities, thereby overstating them. Refer to www.pershing.com/business_continuity.html for specific details as to formulas used to calculate the figures. Accrued interest represents interest earned but not yet received.

Proxy Vote

Securities not fully paid for in your margin account may be lent by Pershing to itself or others in accordance with the terms outlined in the Margin Agreement. The right to vote your shares held on margin may be reduced by the amount of shares on loan. The Proxy Voting Instruction Form sent to you may reflect a smaller [REDACTED] of shares entitled to vote than the [REDACTED] of shares in your margin account.

Foreign Currency Transactions

Pershing may execute foreign currency transactions as principal for your account. Pershing may automatically convert foreign currency to or from U.S. dollars for dividends and similar corporate action transactions unless you instruct your financial organization otherwise. Pershing's currency conversion rate will not exceed the highest interbank conversion rate identified from customary banking sources on the conversion date or the prior business day, increased by up to 1%, unless a particular rate is required by applicable law. Your financial organization may also increase the currency conversion rate. This conversion rate may differ from rates in effect on the date you executed a transaction, incurred a charge, or received a credit. Transactions converted by agents (such as depositories) will be billed at the rates such agents use.

Important Arbitration Disclosures

- All parties to this agreement are giving up the right to sue each other in court, including the right to a trial by jury, except as provided by the rules of the arbitration forum in which a claim is filed.
- Arbitration awards are generally final and binding; a party's ability to have a court reverse or modify an arbitration award is very limited.
- The ability of the parties to obtain documents, witness statements and other discovery is generally more limited in arbitration than in court proceedings.
- The arbitrators do not have to explain the reason(s) for their award, unless, in an eligible case, a joint request for an explained decision has been submitted by all parties to the panel at least 20 days prior to the first scheduled hearing date.
- The panel of arbitrators will typically include a minority of arbitrators who were or are affiliated with the securities industry.
- The rules of some arbitration forums may impose time limits for bringing a claim in arbitration. In some cases, a claim that is ineligible for arbitration may be brought in court.
- The rules of the arbitration forum in which the claim is filed, and any amendments thereto, shall be incorporated into this agreement.

Important Arbitration Agreement

Any controversy between you and Pershing LLC shall be submitted to arbitration before the Financial Industry Regulatory Authority. No person shall bring a putative or certified class action to arbitration, nor seek to enforce any predispute arbitration agreement against any person who has initiated in court a putative class action, who is a member of a putative class who has not opted out of the class with respect to any claims encompassed by the putative class action until; (I) the class certification is denied; (II) the class is decertified; or (III) the client is excluded from the class by the court. Such forbearance to enforce an agreement to arbitrate shall not constitute a waiver of any rights under this agreement except to the extent stated herein. The laws of the State of New York govern.

Important Information and Disclosures

Pricing

This section includes the net market value of the securities in your account on a settlement date basis, including short positions, at the close of the statement period. The market prices, unless otherwise noted, have been obtained from independent vendor services, which we believe to be reliable. Market prices do not constitute a bid or an offer, and may differ from the actual sale price. Securities for which a price is not available are marked "N/A" and are omitted from the Total.

THE AS OF PRICE DATE ONLY APPEARS WHEN THE PRICE DATE DOES NOT EQUAL THE STATEMENT DATE.

The pricing of securities on this statement may vary from their actual liquidation value. Prices shown should only be used as a general guide to portfolio value. Cash shown in this statement may not necessarily be available for investment due to unsettled transactions against your account(s). Prices for marketable securities are received from various pricing services thought to be reliable; however, pricing services are sometimes unable to provide timely information. Where pricing sources are not readily available, estimated prices may be used. When the updated price is received from the price provider, the updated price will be used in the release of the current month's statement. Prior statements will not be revised. You should always request a current valuation for your securities prior to making a financial decision or placing an order.

Deutsche Bank proprietary investments and miscellaneous assets held by Discretionary Accounts, Trust Accounts and Custody Accounts include several categories of securities. Miscellaneous foreign assets are priced via third party sources believed to be reliable.

For certain securities, including thinly-traded securities, debt securities in default, securities that do not have a valid pricing source, and certain third-party structured products, the last available pricing will be listed. If the last price available for such securities is unchanged for a period of time deemed appropriate for that asset, the current price will purge and N/A will be placed in the price field in the statement. The pricing of listed options takes into account the last closing price, as well as the current bid and offer prices.

Estimated Annual Figures

The estimated annual income (EAI) and estimated annual yield (EAY) figures are estimates and for informational purposes only. These figures are not considered to be a forecast or guarantee of future results. These figures are computed using information from providers believed to be reliable; however, no assurance can be made as to the accuracy. Since interest and dividend rates are subject to change at any time, and may be affected by current and future economic, political, and business conditions, they should not be relied on for making investment, trading, or tax decisions. These figures assume that the position quantities, interest and dividend rates, and prices remain constant. A capital gain or return of principal may be included in the figures for certain securities, thereby overstating them. Refer to www.pershing.com/business_continuity.html for specific details as to formulas used to calculate the figures. Accrued interest represents interest earned but not yet received.

Proxy Vote

Securities not fully paid for in your margin account may be lent by Pershing to itself or others in accordance with the terms outlined in the Margin Agreement. The right to vote your shares held on margin may be reduced by the amount of shares on loan. The Proxy Voting Instruction Form sent to you may reflect a smaller [REDACTED] of shares entitled to vote than the [REDACTED] of shares in your margin account.

Foreign Currency Transactions

Pershing may execute foreign currency transactions as principal for your account. Pershing may automatically convert foreign currency to or from U.S. dollars for dividends and similar corporate action transactions unless you instruct your financial organization otherwise. Pershing's currency conversion rate will not exceed the highest interbank conversion rate identified from customary banking sources on the conversion date or the prior business day, increased by up to 1%, unless a particular rate is required by applicable law. Your financial organization may also increase the currency conversion rate. This conversion rate may differ from rates in effect on the date you executed a transaction, incurred a charge, or received a credit. Transactions converted by agents (such as depositories) will be billed at the rates such agents use.

Although a money market mutual fund seeks to preserve the value of your investment at \$1 per share, it is possible to lose money by investing in a money market mutual fund. Shares of a money market mutual fund or the balance of a bank deposit product held in your brokerage account may be liquidated upon request with the proceeds credited to your brokerage account. Please see the money market mutual fund's prospectus or the bank deposit product's disclosure document or contact your advisor for additional information. Pursuant to SEC Rule 10b-10(b)(1) confirmations are not sent for purchases into money market mutual funds processed on the sweep platform.

Important Information and Disclosures

Pricing

This section includes the net market value of the securities in your account on a settlement date basis, including short positions, at the close of the statement period. The market prices, unless otherwise noted, have been obtained from independent vendor services, which we believe to be reliable. Market prices do not constitute a bid or an offer, and may differ from the actual sale price. Securities for which a price is not available are marked "N/A" and are omitted from the Total.

THE AS OF PRICE DATE ONLY APPEARS WHEN THE PRICE DATE DOES NOT EQUAL THE STATEMENT DATE.

The pricing of securities on this statement may vary from their actual liquidation value. Prices shown should only be used as a general guide to portfolio value. Cash shown in this statement may not necessarily be available for investment due to unsettled transactions against your account(s). Prices for marketable securities are received from various pricing services thought to be reliable; however, pricing services are sometimes unable to provide timely information. Where pricing sources are not readily available, estimated prices may be used. When the updated price is received from the price provider, the updated price will be used in the release of the current month's statement. Prior statements will not be revised. You should always request a current valuation for your securities prior to making a financial decision or placing an order.

Deutsche Bank proprietary investments and miscellaneous assets held by Discretionary Accounts, Trust Accounts and Custody Accounts include several categories of securities. Miscellaneous foreign assets are priced via third party sources believed to be reliable.

For certain securities, including thinly-traded securities, debt securities in default, securities that do not have a valid pricing source, and certain third-party structured products, the last available pricing will be listed. If the last price available for such securities is unchanged for a period of time deemed appropriate for that asset, the current price will purge and N/A will be placed in the price field in the statement. The pricing of listed options takes into account the last closing price, as well as the current bid and offer prices.

Estimated Annual Figures

The estimated annual income (EAI) and estimated annual yield (EAY) figures are estimates and for informational purposes only. These figures are not considered to be a forecast or guarantee of future results. These figures are computed using information from providers believed to be reliable; however, no assurance can be made as to the accuracy. Since interest and dividend rates are subject to change at any time, and may be affected by current and future economic, political, and business conditions, they should not be relied on for making investment, trading, or tax decisions. These figures assume that the position quantities, interest and dividend rates, and prices remain constant. A capital gain or return of principal may be included in the figures for certain securities, thereby overstating them. Refer to www.pershing.com/business_continuity.html for specific details as to formulas used to calculate the figures. Accrued interest represents interest earned but not yet received.

Proxy Vote

Securities not fully paid for in your margin account may be lent by Pershing to itself or others in accordance with the terms outlined in the Margin Agreement. The right to vote your shares held on margin may be reduced by the amount of shares on loan. The Proxy Voting Instruction Form sent to you may reflect a smaller [REDACTED] of shares entitled to vote than the [REDACTED] of shares in your margin account.

Foreign Currency Transactions

Pershing may execute foreign currency transactions as principal for your account. Pershing may automatically convert foreign currency to or from U.S. dollars for dividends and similar corporate action transactions unless you instruct your financial organization otherwise. Pershing's currency conversion rate will not exceed the highest interbank conversion rate identified from customary banking sources on the conversion date or the prior business day, increased by up to 1%, unless a particular rate is required by applicable law. Your financial organization may also increase the currency conversion rate. This conversion rate may differ from rates in effect on the date you executed a transaction, incurred a charge, or received a credit. Transactions converted by agents (such as depositories) will be billed at the rates such agents use.

Important Arbitration Disclosures

- All parties to this agreement are giving up the right to sue each other in court, including the right to a trial by jury, except as provided by the rules of the arbitration forum in which a claim is filed.
- Arbitration awards are generally final and binding; a party's ability to have a court reverse or modify an arbitration award is very limited.
- The ability of the parties to obtain documents, witness statements and other discovery is generally more limited in arbitration than in court proceedings.
- The arbitrators do not have to explain the reason(s) for their award, unless, in an eligible case, a joint request for an explained decision has been submitted by all parties to the panel at least 20 days prior to the first scheduled hearing date.
- The panel of arbitrators will typically include a minority of arbitrators who were or are affiliated with the securities industry.
- The rules of some arbitration forums may impose time limits for bringing a claim in arbitration. In some cases, a claim that is ineligible for arbitration may be brought in court.
- The rules of the arbitration forum in which the claim is filed, and any amendments thereto, shall be incorporated into this agreement.

Important Arbitration Agreement

Any controversy between you and Pershing LLC shall be submitted to arbitration before the Financial Industry Regulatory Authority. No person shall bring a putative or certified class action to arbitration, nor seek to enforce any predispute arbitration agreement against any person who has initiated in court a putative class action, who is a member of a putative class who has not opted out of the class with respect to any claims encompassed by the putative class action until; (I) the class certification is denied; (II) the class is decertified; or (III) the client is excluded from the class by the court. Such forbearance to enforce an agreement to arbitrate shall not constitute a waiver of any rights under this agreement except to the extent stated herein. The laws of the State of New York govern.
