Telefunken Hi Fi System 1950s

Here is a vintage Telefunken Stereo Hi Fi System that works. This beautiful vintage piece is in excellent condition. The only thing wrong is 8 inches of gold trim is missing on the upper left side. The speakers work. The sound is exceptional. It measures 48 inches wide, 15.5 inches deep and 33 inches high. This is a delicate piece and we will not ship it. It must be picked up in Northern New Jersey

IHS-055.....\$1000.00
