

STEVEN D. SMALL

Dear Mr. Jeffrey Epstein

I HATE that you got into this mess with these girls over the years. These girls knew what they were doing you didn't put a gun to their head but you have to watch it to, all rich people are targets in this world people are going to come at you to get a dollar. Women are really sticky it to the men on every level it seems and a lot is justify in some cases. In your case you really need to watch yourself you are a target and you never should get yourself caught up in this BS in the first place. You knew these girls would come at you in the long run and mess up your reputation you should of new that and go after your pockets.
