133	<u>113</u> HM Equipment	Tap & Dale	Quadski	<p>We are working on the Quadski, 1st - The ECU was not communicating with the computer - we found an issue with a wire pulled out, now we are communicating. The initial tests on the Chassis wire harness and components (Fan, Blowers Throttle Blipper, bilge) are all working properly.</p> <p>The Next thing we need to establish is the condition of the Clutch. Your Mechanic mentioned he removed the Clutch cover, there are still loose bolts that establish it has been worked on. There's no water time and little land use - The clutch should not be worn out? The machine is having the fluids replaced and get is started to evaluate why your mechanic was looking at the clutch/Along with a Battery -Exhaust Muffler Rubber mount is broken in Half -The Muffler is loose connecting to exhaust pipe - seal is damaged</p> <p>RH side - Upper Sprocket seal/Cap is missing - Tire Hub cap is missing -</p> <p>Handle Bar assembly - Has been recalled - I sent that request in immediately - part are her to update the machine - No Charge to customer -</p> <p>The Air Intake Hose to Engine - was being squished flat - The hose is mounted in the wrong location -The Fuel Tank seal is Missing - rubber seal for fuel pump assy -if things go well the machine could be done by end of next week - if the clutch needs work add probably another week! This information will all be on a report - Before we repair we will be making contact for approval</p>
134	<u>114</u> HM Equipment	Tap & Dale	Fuel Truck / Flatbed	Turn Fuel truck into Flatbed
135	<u>115</u> HM Equipment	Tap & Dale	Electric Carts	The (3) 2019 Polaris Ranger EV units arrived at vendor 5/23. Will be sent for undercoating (Rust proofing process) 5/31.
136	<u>116</u> HM Equipment	Tap & Dale	ProGator	John Deere does not manufacture electric progtators.
137	<u>117</u> HM Equipment	Tap & Dale	Roller	Arrived on STT 5/22. Cleared, off-loaded, awaiting transport to LSJ. MG will schedule barge to pick up directly from Tropical Shipping STT. awaiting Barge

July Barge log

7-5 Friday

Mate and Myself fly to PR to sea trial barge and return to STT Saturday.
Discover propellers are the wrong Diameter. Change props. Discover steering
cylinder problem. Launch.
No charging current. Sea trial cut short by small switch catching fire on con
tower. Rough conditions contribute.
To slip. Fix bad burned circuit.

7-6 Saturday. All day working on no charge from alternators produces no
remedy.
Decision made to return to STT until repairs are made starting Monday.
Email report.

7-7 Sunday

Make work list. Send to Bobby and Mike.
Fly to STT
Verbally revisit work list with Bobby.

7-18 Thursday

CONFIDENTIAL

SDNY_GM_00332823

EFTA_00205549

EFTA01309523

To airport to pr for barge. One alternator is still not working. To San Juan for test. To PDR to reinstall. Self exciting alternators must be turned fast to work. Propellers removed and installed. Launch and move boat.

Leave for STT @ 15:45. Boat hydraulic cylinder breaks east of Cuelebra. Secure with straps and limp to SBDD. arrive 01:30. Secure, leave messages and carlos takes mate and I to AYH.

-BAD day at sea.

7-19- Friday.

Go to SBDD EARLY. Evaluate damage and photograph. Submit plan to solve issue.

Contact Geno. Make repair plan. Move boat to facilitate cylinder removal with crane for welding. Standby for Carlos and Phil to inspect and approve plan.

08:55.

7-20 Saturday

Go to SBDD early morning to view progress. A change in plan that did not involve removing the cylinders was discussed and adopted. Also, the port eyelet is to be welded in place as well.

Return late afternoon to view progress but no personnel were available for the project so it's a Monday deal.

Tuesday 7-23

To SBDD for barge.

Evaluate rams and bearings. Put in pins. Go to red hook wash down. To RHPAD for Troy and outboards. To LSJ.

First trash load to stt.

Second load of trash to stt.

7-24 Wednesday

Empty bin to LSJ. Metal bin to stt. Metal bin to LSJ. To GSJ for trash bin. To stt.

CONFIDENTIAL
