Bear, Stearns Securities Corp. Net Capital and Net Capital Requirements:

At May 31, 2004 and July 31, 2004, the Company's net capital of approximately \$3.6 billion and \$3.6 billion was approximately 6.8% and 6.5% of aggregate debit items and exceeded the minimum regulatory net capital requirement of approximately \$1.1 billion and \$1.1 billion by approximately \$2.5 billion and \$2.5 billion, all respectively.

A complete copy of the Bear, Stearns Securities Corp. Statement of Financial Condition is available on the web site www.bearstearns.com. Alternatively, to request a free printed copy please call - toll free 1-866-299-9331.

Securities and other assets in your account are the firm's collateral for any margin loan made to you. If the securities and other assets in your account decline in value, so does the value of the collateral supporting your loan, and, as a result, the firm can take action, such as issue a margin call and/or sell securities or other assets in any of your accounts held with the member, in order to maintain the required equity in the account. It is important that you fully understand the risks involved in trading securities on margin. These risks include the following:

- * You can lose more funds than you deposit in the margin account.
- * The firm can force the sale of securities or other assets in your account(s).
- * The firm can sell your securities or other assets without contacting you.
- * You are not entitled to choose which securities or other assets in your account(s) are liquidated or sold to meet a margin call.
- * The firm can increase its "house" maintenance margin requirements at any time and is not required to provide you advance written notice.
- * You are not entitled to an extension of time on a margin call.

Notice Regarding a Change in The Statement of Interest Charges Pursuant to the "Truth-in-Lending" Rule 10 (b)-16 Regarding Short Sales And Marking-To-The-Market

Effective no earlier than thirty (30) days from your receipt of this statement, we will compute interest regarding your short sales and marking-to-the market as follows:

The credit that appears on your statement due to short sales (including short sales against the box) is offset by a debit of like amount because Bear Stearns Securities has to borrow the same security in order to deliver it to the buying broker and has to provide its lender additional collateral of up to 105% of the settled short market value of the borrowed securities to secure such loan. This means that the debit balance on which interest is computed will be the difference between (i) up to 105% of the settled short market value of such short sales (across all currencies), which shall be calculated daily, and (ii) the proceeds of such short sales.

Any short positions in your account will be kept "marked-to-the market". This means that periodically the balance maintained in the short account will be adjusted to equal the market value of the short securities. Securities that are priced below five dollars per share may be valued at five dollars per share for short marking-to-the market purposes. If a security has been sold short (or sold short against the box) and has appreciated in market price over the selling price, interest will be charged on the amount of appreciation; if it depreciates in market price, interest will be correspondingly reduced by the drop in value. The appreciation or depreciation of securities sold short will be determined by Bear Stearns Securities based upon daily closing prices or quotations provided by pricing services, as applicable, or upon such factors as Bear Stearns Securities in its sole judgement deems pertinent.

Please note that the other sections of the "Truth-in-Lending" disclosure previously provided to you remain unchanged.
