(1) Glendower Capital estimate of market returns based on own market intelligence.

(2) As of September 30, 2017. Gross returns do not reflect the priority profit share, carried interest, taxes, transaction costs and other expenses. Performance figures have been calculated based on the unaudited performance results and should be read and reviewed in conjunction with the "Important Information" and "Notes to the Investment Performance" sections of this presentation. The "Notes to Investment Performance" section in particular includes, among other things, a description of the terms used in the tables above and sets forth important guidelines and limitations as to the performance described above. Past performance is not a prediction of the future performance.

(3) For fund-level net returns, please refer to the overall transaction summaries for SOF, SOF II and SOF III on pages 43, 45 and 47.
