Classification: **For internal use only**

Hi Paolo,

I am not sure who should be the right contact to provide relevant information. I would assume that Gedeon Pinedo used to provided such information in past however he left the bank.

@ Debbie/Halina,

Would you please assist on below mail if you know the right contact to get in touch with?

Kind regards,  
Surendra Singh

Hi Abhijit and Surenda,

Just to confirm my understanding of the process, Abhijit's team cannot proceed with adding of the collateral to the daily derivative report until Surenda's team builds a dummy bond in LS2, and Surenda cannot proceed unless she has the below highlighted items? So it seems that process is in a logjam until all the below information is retrieved.

Surenda- in the past when onboarding Wealth Management clients onto LS2, what was the name of the person who provided to you the below information? It seems that in Srikanta note below that CRM is responsible for providing the LS2 team with that information, but CRM is typically involved only with credit risk analysis and margining approval; the information below seems operational and compliance based in nature. I'd like to track down the ultimate owners of the below information so that we can create a process around retrieving this information when setting up new LS2 profiles.
