

1) Assuming that negative media hits and respective clearances are stored: conduct a fuzzy logic search through all clearance statements looking for phrases such as “as per prior approval”, “based on decision by”, “...”. Any hits to be reviewed by DCO/BI/AFC.

2) Search the KYC files for unusually senior sign off parties for onboarding in AFC and the business - come up with a way to electronically search for key words, such as “exception referral”, “regional AFC Head”, maybe a list of names like prior AFC Heads, Business Heads, COOs.

3) ...?

Speak later,

Wolfram
