Hi Philip

The topic of J Epstein seems to accelerate quite fast over the last 24h. Supervisory board is requesting an update next week and a major global file review is getting underway as a reaction to the relationship. KvR also quite closely checking in on this as far as I understand.

I spent quite some time on this over the last couple of days. Below the update to Fabrizio last night.

Michael Off and Kim Hart are working on this and can give you more detailed insight.

I think something of sufficient importance for you to be briefed and kept up to speed.

Happy to speak.

Best regards  
Wolfram
