Client thinks these statements should be fine as is. Are the account 42953707 statements being returned as well? Same client, same address, although the 4295 account address specifies 4<sup>th</sup> floor . . .

Let me know what else we need to do here.

Thanks

Stewart

Thank you for getting back to me I will hold off until hearing from you

Lisa

Lisa,

The account address has not changed. Let me sort out why we are getting the statements returned. Might be a mail room issue at the client's building. Thanks
