Classification: **For internal use only**

Thank you Tony. I'm comfortable with those proposed controls and I approve opening the account with a side letter capturing the language regarding waiver of set off. I leave that to Stewart and Rachel.

Kind regards,  
Patrick Campion

Classification: **For internal use only**

Providing we are able to reach agreement on the side letter specifics, the following controls are available as reference for present and future servicing personnel.

1. Deposit Application - at the account level we can place a permanent or temporary remark that will alert a user that a standing side letter is in place.
2. DBforce - The side letter will be within the document repository section that should be referenced when setting up a new account.

Thank you
