

About 169 Private Bank accounts have ATM withdrawals every week. More than 58% (~98) of those accounts have only 1 ATM withdrawal per week.

The average PWM account with ATM transactions has 2 ATM transactions per week and the average size of the transaction is \$344.80 (\$712.16/2).

RECOMMENDATION

No changes recommended. Current parameters are sufficient.

Rule Name	Additional Details/Parameter Settings
RepOffChks	5 Official Checks exceeding \$13,000. Runs weekly.

The rule is designed to flag accounts that have 5 or more official check transactions of at least \$13,000 each within 7 days.

The analysis included in this document is based on the population of transactions with a "bookdate" between 3/1/2011 and 3/31/2011.

Total number of official checks for this period: 5,055.

In 1Q 2012, about 3% or, 132 of 5,055 official checks were captured in a repetitive alert.
