

Team Biographies

Portfolio Management and Investment Team (Cont'd)

Cameron Berns, Assistant Vice President

Mr. Berns is responsible for sourcing, screening, structuring, executing and monitoring infrastructure debt investments across multiple sub-sectors, including conventional and renewable power generation, utilities, rail, airports, roads, ports, car parks, waste management and other specialist sub-sectors. Mr. Berns also assists with portfolio management strategy development, fund structuring, and marketing. Mr. Berns graduated magna cum laude from the Wharton School of the University of Pennsylvania receiving a BS in Economics.

Benjamin Schmitt, Assistant Vice President

Mr. Schmitt has over 7 year experience in infrastructure finance and is responsible for structuring, analyzing and executing debt transactions in the infrastructure sector, including sub-sectors such as transportation, utilities, power generation and social infrastructure. Mr. Schmitt joined Deutsche AM Infrastructure in 2014, having previously spent four years within the International Structured Finance team of Intesa SanPaolo in London where he successfully closed a number of limited recourse transactions across transportation and telecom in the EMEA region. Prior to that, Mr. Schmitt was responsible for analyzing and executing investment opportunities in the UK social infrastructure sector for Morgan Sindall Investments Limited. Mr. Schmitt graduated with a Master in Management from EDHEC Business School, in France.

Joshua Kim, Associate

Mr. Kim is responsible for sourcing, structuring, executing, and monitoring infrastructure debt investment opportunities. Prior to joining Deutsche Asset Management in 2017, Mr. Kim spent two years working in the investment banking division at J.P. Morgan where he executed advisory and debt financing assignments for the firm's public infrastructure clients across the water, wastewater, power, transportation, and communications sectors. Mr. Kim holds a bachelor's degree in Environmental Economics and Policy from University of California, Berkeley.
