All...

An addition/clarification...for the avoidance of any doubt.

When using the signature verification option, please ensure that you use the signature verified stamp, and include the verifier's name, you must also indicate what document you relied upon for such verification by stating the specimen used (ie, photo ID, Signature Card, etc.) for comparing signatures and the date of verification.

Basically, in addition to your name and the date, please also indicate what document contains the signature specimen you used to verify the signature.

Best,
Armen
