

Forward-Looking Information

Any projections or other estimates included in the Confidential Information, including estimates of returns or performance, are forward-looking statements and are based upon certain assumptions. Other events which were not taken into account may occur and may significantly affect the actual returns or performance of the Siris Funds and/or any of the companies in which the Siris Funds or Siris Capital have invested or may invest. Any assumptions should not be construed to be indicative of the actual events which will occur. Actual events are difficult to project and depend upon factors that are beyond the control of the Siris Funds, Siris Capital and their respective affiliates, members, partners, stockholders, other beneficial owners, managers, directors, officers, employees, representatives or agents. Certain assumptions have been made to simplify the presentation and, accordingly, actual results may differ, perhaps materially, from those presented therein.

Projections

Past or projected performance is not necessarily indicative of future results, and there can be no assurance that the Siris Funds or their investments will achieve comparable results to those presented in the Confidential Information, that the Siris Funds will be able to implement their investment strategies or achieve their investment objectives or that the returns generated by any investments will equal or exceed any past or projected returns presented therein. Any estimated future returns set forth in the Confidential Information (the "*Projections*") are hypothetical, have been prepared and are set out for illustrative purposes only, and do not constitute a forecast. They have been prepared based on Siris Capital's current view in relation to future events and various estimations and assumptions made by Siris Capital or the applicable investments, including estimations and assumptions about events that have not yet occurred. Such estimations and assumptions may require modification as additional information becomes available and as economic and market developments warrant. Any such modification could be either favorable or adverse. While the Projections are based on assumptions that Siris Capital believes are reasonable under the circumstances, they are subject to uncertainties, changes (including changes in economic, operational, political, legal, tax and other circumstances) and other risks, including, but not limited to, broad trends in business and finance, tax and other legislation affecting the Siris Funds, their investors, investments, monetary and fiscal policies, interest rates, inflation, market conditions, the level and volatility of trading markets, the availability and cost of short-term or long-term funding and capital, all of which are beyond Siris Capital's control and any of which may cause the relevant actual, financial and other results to be materially different from the results expressed or implied by such Projections. Industry experts may disagree with the estimations and assumptions used in preparing the Projections.

No assurance, representation or warranty is made by any person that any of the Projections will be achieved, and no recipient of this Information should rely on the Projections. None of the Siris Funds, Siris Capital, their affiliates or any of the respective directors, officers, employees, partners, shareholders, advisers or agents of any of the foregoing makes any assurance, representation or warranty as to the accuracy of the Projections. Nothing contained therein may be relied upon as a guarantee, promise or forecast or a representation as to the future.
