

Important Disclosures

This presentation does not constitute an offer to sell or a solicitation of an offer to buy any securities, which will only be made pursuant to definitive written offering documents (the "Definitive Documents") which describe risks related to an investment therein and which qualify in their entirety the information set forth herein. This presentation has been prepared on a confidential basis and does not constitute part of any such Definitive Documents. Such Definitive Documents should be read carefully prior to any investment in GTIS Qualified Opportunity Fund LLC (the "Fund"). Any reproduction or distribution of this presentation in whole or in part, or the disclosure of any of its contents, without the prior consent of GTIS Partners ("GTIS"), is prohibited.

This presentation contains forward-looking statements that are not historical facts and are based upon certain assumptions. These forward-looking statements include statements, express or implied, regarding the current expectations, estimates, projections, opinions and beliefs of GTIS, as well as the assumptions on which those statements are based. Words such as "believes," "expects," "endeavors," "anticipates," "intends," "plans," "estimates," "projects," "should" and "objective" and variations of such words and similar words also identify forward-looking statements. Such statements are forward-looking in nature and involve a number of known and unknown risks, uncertainties and other factors, including those described in this presentation, and accordingly, actual results may differ materially and no assurance can be given that GTIS will achieve the returns from its investments that it is targeting.

There can be no assurance that unrealized investments will be realized at the valuations or projections shown, as actual realized returns will depend on, among other factors, future operating results, the value of the assets and market conditions at the time of disposition, any related transaction costs, and the timing and manner of sale, all of which may differ from the assumptions on which the valuations and projections contained herein are based. Nothing contained herein should be deemed to be a prediction or projection of future performance. There can be no guarantee or assurances that similar investment opportunities will be available in the future or that the Fund will realize similar returns on these investments. GTIS is pursuing the opportunities in the Fund's investment pipeline described herein to varying degrees; however, there can be no assurances that pipeline investments will be consummated by the Fund or otherwise. Investors in the Fund should be able to withstand a complete loss of their invested capital. An investment in the Fund will provide limited liquidity since the interests in the Fund are not freely transferable. There is no secondary market for the interests and none is expected to develop. An investment in the Fund is suitable only for sophisticated investors who do not require immediate liquidity for their investment and can bear the loss of their entire investment. See Certain Risk Factors Section for other risks.

Unless otherwise indicated, all internal rates of return ("IRRs") and multiples on invested capital ("Multiples") contained herein are presented on a "gross" basis (i.e., before management fees, fund-level expenses, carried interest and similar items, which in the aggregate may be substantial).

While such sources are believed to be reliable, none of GTIS or its affiliates assumes any responsibility for such information.
