differences between amounts paid, if any, upon the resolution of audits and amounts previously provided may be material. Differences between the reserves for income tax contingencies and the amounts owed by the Company are recorded in the period they become known.

At December 31, 2013 and 2014, unrecognized tax benefits, including interest, are \$12.4 million and \$12.1 million, respectively. Included in unrecognized tax benefits at December 31, 2013 and 2014, is approximately \$0.5 million and \$0.7 million, respectively, for tax positions included in IAC's consolidated tax return filings. Unrecognized tax benefits, including interest, for the year ended December 31, 2014 decreased by \$0.3 million due principally to foreign statute expirations. If unrecognized tax benefits at December 31, 2014 are subsequently recognized, \$11.8 million, net of related deferred tax assets and interest, would reduce income tax expense. The comparable amount as of December 31, 2013 is \$12.0 million. The Company believes that it is reasonably possible that its unrecognized tax benefits could decrease by approximately \$1.2 million by December 31, 2015, primarily due to expirations of statutes of limitations.
