# Ka'anapali Whale Watch

This is a seasonal event and is available mid-December through mid-May

Each Winter, the Pacific Humpback Whale, migrates from Alaska to the waters of the coast of Maui. These "Gentle Giants" are one of Maui's most prized visitors with their spectacular "breaching and tail slapping."

From December 15 to April 15 two daily tours are available; a morning whale watch and an afternoon whale watch. A Professional Marine Naturalist will share intriguing information and up-to-date facts about the Whales as you listen to 'Whale Songs' live on a hydrophone. Watch mothers and calves interact, see males compete for females. You never know what you will see!
