Rich,

Please see below refreshed indications – these levels are not tradable. We did not refresh the \$50 strikes as they are well in the money now. Further, we heard back from our Credit Risk Management team and they would require 40% IA for the below transactions in cash or treasuries (i.e. approx. \$20mm on 1mm barrels of WTI).

Notional: 1mm barrels of WTI

WTI futures references:
