

According to the GMIS report that account has a positive revenue of \$10,468.79. Can you please let me know where you are seeing a negative revenue so that I can research the issue further?

Thank you,

Morgan Byrd

Understood, would definitely like to understand how that happened so we can be sure the other numbers are correct.

Thank you.

JJ,

Morgan is correct from an NNA perspective on how this works. I am more concerned about the negative since there does not appear to be any asset outflows

I was an integral part of winning that business and think the team should still get credit.

Where specifically is the negative revenue coming from?
