

Deutsche Asset Management

Deutsche Asset Management's infrastructure investment management business (formerly RREEF Infrastructure) is part of the Alternatives and Real Assets platform of the Asset Management Division of Deutsche Bank, one of the largest banks in the world by total assets.

With over \$810 billion in assets under management across all asset classes³⁵, over 890 institutional clients and more than 3,900 employees³⁶, Deutsche Asset Management is one of the world's leading investment management institutions, not just in size, but in quality and breadth of investment products, performance and client service. Deutsche Asset Management's footprint is global, with a proven track record in generating strong risk adjusted returns across the full range of geographies and investment management products. Deutsche Asset Management is proud of its long asset management heritage spanning more than 80 years, and is committed to upholding its reputation as a leading asset manager through maintaining strong fiduciary relationships with its clients. Furthermore, Deutsche Asset Management is a founding member of the U.N. Global Compact and adopts ESG principles across the platform.

DeAM leverages Deutsche Bank's financial strength and reputation in the global marketplace, while accessing other areas of expertise within the bank such as global macroeconomic, regional and industry research and mergers and advisory expertise.³⁷

Recent investment management accolades received by DeAM and its subsidiaries include:

- 2017 North America Asset Manager of the Year³⁸
- 2017 Best Fixed Income Asset Manager³⁹
- 2016 Wealth Manager of the Year⁴⁰
- 2016 Best Discretionary/Advisory Wealth Manager⁴¹
