Hi Paul,

I hope you had a great weekend. Our desk publishes a weekly derivatives flow piece on key themes we've seen in the market and trade ideas around those themes. Below is the piece that we published yesterday. Karthik Nagalingam (cc'd) is our colleague that is responsible for this piece.

I'll send these over to you for the next few weeks and if they are of interest, I'll ask Karthik to add you to the automatic distribution.

Thanks so much,
Nadean
