Hi Monika,

This was a WM US retain from the Offboarding Clearing House process, that currently reflects in the overall CIB file colour (not coverage colour). Hence green.

Nina – was NCA completed? We can't see it reflected in dbCAR (still appears delinquent) but I know that is part of the broader conversation that Julia is having with Paul Chapman.

Thanks

Jane

Hi Xavier

The GB adoption location is Red across all business but this is CIB Green for the US adoption location – as one of the businesses has asked to retain this. @Jane please confirm which business asked to retain?

In these instances, the GM products will not be offboarded if another business has asked to retain and the KYC/AC0 responsibility sits with that business.

However, please also be aware that this is a High Risk client which is KYC deficient and was last reviewed in 2015.

Please let me know if any other questions.

Kind regards,

Thanks Monica, did we hear anything back? The client is asking questions and we have no clear answers or timeframe to give him. Thanks

Hi Xavier

I've reached out to Central Mercury to find out the CIB colour - I will update as soon as I hear back.

Kind regards,

GM ACO, can you pls let us know what the issue is?

We have a client trying to execute a transaction.

Thanks

Gm ACO – can you liaise with central merc and establish the CIB colour on the rhp below?

thx

Ian, thanks for the call.

So Rita who is the Case Manager seems to suggest that she sees Southern Financial Red and therefore we cannot extend it to Credit Derivatives, while we think we should see this Green from a KCP perspective.

Bu you explain to me that the Red might be only when it comes to your ICG world.

Can you pls clarify if this client is Red for everyone including KCP and if so how do we turn it Green, as discussed this is an example of a KCP Americas account that is ACOed by us, in this case myself.

Thanks

Xavi
