

DISCLOSURES

Private Placement Variable Annuity is an unregistered securities product and is not subject to the same regulatory requirements as registered variable annuity products. As such, Private Placement Variable Annuities should only be presented to accredited investors or qualified purchasers as described by the Securities Act of 1933.

This material is intended for informational purposes only and should not be construed as legal or tax advice and is not intended to replace the advice of a qualified attorney, or tax advisor. This material may be delivered only by an individual licensed to present Private Placement Variable Annuity offering documents.

Private Placement Variable Annuities are long-term investments. The value of the investment options will fluctuate and, when redeemed or annuitized, may be worth more or less than the original cost. Withdrawals and other distributions of taxable amounts, including death benefit payments, will be subject to ordinary income tax. If withdrawals and other distributions are taken prior to age 59 ½, a 10% excise tax may apply. Assumes the Private Placement Variable Annuities illustrated herein are not issued in the following states: CA, ME, NV, PR, SD, WV, or WY. These states charge a premium tax, which would add a fee to such illustrations.

A Private Placement Variable Annuity investment may include additional fees such as placement fees and performance fees. None of the illustrations contained herein assume these fees. The returns would be lower if these fees become applicable.

The tax and legal references attached herein are designed to provide accurate and authoritative information with regard to the subject matter covered and are provided with the understanding that Winged Keel Group, Inc. is not engaged in rendering tax, legal or actuarial services. If tax, legal or actuarial advice is required, you should consult your accountant, attorney, or actuary. Winged Keel Group, Inc. does not replace those advisors.

The tax rates and tax treatment of earnings may impact comparative results. Lower maximum tax rates on capital gains and dividends would make the investment return for the taxable investment more favorable, thereby reducing the difference in performance between the accounts shown.

The information and financial data included here are purely hypothetical and are not intended to predict or project future performance. Any illustration is intended solely for discussion purposes and is not representative of any actual investment results or performance. Actual investment results and performance will vary and are not guaranteed. This information is not intended to constitute any future performance figures and no specific securities are identified.

The financial illustrations and other statements within this report, as well as comments made by any individuals, are not guaranteed and do not constitute a contract. Any contract entered into is between the Private Placement Variable Annuity owner and the insurance company, through its Private Placement Variable Annuity. You should read the Private Placement Variable Annuity thoroughly.

Investors should consider the investment objectives, risks, charges and expenses of any variable product carefully before investing. This and other important information about the investment company is contained in each fund's offering memorandum, which can be obtained by calling (212) 527-8000. Please read it carefully before you invest.
