Subject: usdcad update for JE [I]

Classification: For internal use only

three points

1. commodity px are much higher - bullish cad
 2. CAD 2y swap rate higher (not lower as i had expected) vs US rates compared to 2mths ago - bullish cad
- (Embedded image moved to file: pic01426.gif)

canada still has v vulnerable housing sector and several high profile clients have been exiting canadian risk (pimco ed devlin in ft last week) but nevertheless given 1 and 2 above im less bearish cad vs usd than 2mths ago when JE entered the trade.

so given 1 and 2 im surprised usdcad hasnt moved lower - i dont have a view on usdcad here and therefore dont like the trade anymore

Nav
