Jeffrey -

First BRL note's valuation date is this Thursday, 3/20 (settles 3/27); presently down 19.8%, intrinsic. Your original investment was \$1mm notional.

Initial strike: 1.9619
15% european barrier: 2.2562
Current USDBRL spot: 2.3505

Your second note has a final valuation of 4/14. Initial strike 2.0035, european barrier =2.3040.

Recall that the payout on these was as follows:

a) make 28.5% if BRL is up more than 3% vs. USD at maturity, b) make 5% if BRL is up between 0-
