as you know, i am blooming with, and calling, the traders on this. i can only send info to jeffrey as fast as that interchange goes. i do not have the pricing system myself for indicative bids.

solution:

- 1) get kcp the pricing system for indicative levels
- 2) plug jeffrey in directly with commod traders. note: they bloom, not email. do not believe this will solve his ask as a) jeffrey wants info via email, b) traders will not entertain iterations without a trade, esp at this size.
