Rich -  
Chatted with Nav re: euro position. View from the KCP Cap Mkts London team is that the recent euro strength (dollar weakness driven) reverts again as the cross trades in its low-130 to high -130 range. As previously discussed, looking to profit on that reversion. current mark to market is down ~25k.

Let us know if you have additional thoughts/questions.

Best,  
Tazia
