thank you for update
also looking at copper position and happy to see unrealized profit of +30,000
any thoughts on jee exiting or do you see continued strength in copper
please advise
thank you

Rich -
Chatted with Nav re: euro position. View from the KCP Cap Mkts London team is that the recent euro strength (dollar weakness driven) reverts again as the cross trades in its low-130 to high -130 range. As previously discussed, looking to profit on that reversion. current mark to market is down ~25k.

Let us know if you have additional thoughts/questions.

Best,
