Confirmed. The dynamic margin requirement is still being fed from upstream and is effectively double counting what's required. We'll get it fixed, but it may take a couple days.

Hi Vahe,

I just spoke with Roddy and he confirmed the margin call was erroneous and they are in the process of fixing the error. Roddy - can you please confirm?

Best,
Ari

Roddy - following up on the below, I would like to square this away. Can you please let me know if there is a discrepancy in your systems per my conversation last week with Andrew?

If not, can you please specify what triggered the initial margin call? It wasn't clear from the valuation reports, and the client will request details when we reach out to him.

Thank you,
Vahe
