On another separate disaster posting you on southern financial. They pitched one of the short euro trades and the numbers were all wrong. Happy to discuss.

Happy to discuss the situation more, Daniel stopped by and of course we are unified. We have been telling him with clients when we make a mistake we need to address the issue quickly and not wait to hear from the client in this situation four days after the fact and use the bankers as they can be helpful in these situations. Also I have suggested to Daniel and Vahe that Stewart and I are happy to review emails prior to being sent to clients.
