please check your prices I have gone to three other banks and yours is the only one with a 141 price on the 104 puts, not one other house has that wide a spread. NOT ONE-- all other show the same bid

Jeffrey - we priced vanilla risk reversals with 1.04 and 1.05 strikes on the put leg. We provided levels as a spread, and with bid/asks on each leg per your request. Note that if executed as a spread, you would only cross bid/ask once and pay mid premium on the put leg.
