Rich -
Chatted with Nav re: euro position. View from the KCP Cap Mkts London team
is that the recent euro strength (dollar weakness driven) reverts again as
the cross trades in its low-130 to high -130 range. As previously
discussed, looking to profit on that reversion. current mark to market is
down ~25k.

Let us know if you have additional thoughts/questions.

Best,
Tazia
