You need to check the formula in the GA line item. Looks like you are multiplying by .02% instead of 2%

Melinda, I don't see the General Atlantic credit facility in here? Should be \$150 million at 2.0 run rate interest and 25 bps upfront fees, put in 75% category so shows up on first page. thanks

If we just wanted to keep the customer/relationship on the list to remember them, I put "Introduction" in the Opportunity name with a probability of 0%.

Pending items:

Heptagon Capital - submitted for conversion to a customer, then I will add the derivative opportunity Latona Advisors - can't find them online to submit as a lead..need the state where they are based.
Did I misspell their name?

Let me know if there are other items to add, delete, or update. Thanks!
