As a part of the PWM anti-money laundering monitoring program, the PRIME system is used to automatically identify transactions that meet certain high risk transaction patterns. When transactions occur which mimic those patterns, the activity must be researched to confirm that it is legitimate.

In a small percentage of these cases, Compliance must contact the Wealth Advisor for additional information about the transaction(s) in order to conclude the research process. Your response is required for the Bank to comply with federal guidelines for concluding the research of these matters in a timely fashion. Your complete response must be received within 7 business days.

To the best of your ability, please provide details regarding the item(s) below:

[REDACTED] – Jeffrey Epstein account sent two wires, \$300,000 on 2/11/2016 to LSJE, LLC at FIRSTBANK Puerto Rico and \$150,000 on 2/19/2016 to Zorro

Development Corporation.

1. Who are the beneficiaries of the outgoing wires?
2. What is the purpose of these transactions?
3. Will we be expecting future transactions to these same beneficiaries?

Thank you in advance for your prompt attention to this matter.
