

For the Period 8/1/11 to 8/31/11

Valuations of over-the-counter derivative transactions, including certain derivatives-related deposit products, have been prepared on a mid-market basis. These valuations are derived from proprietary models based upon well-recognized financial principles and we have, when necessary to calculate the present value of future cash flows, made reasonable estimates about relevant future market conditions. Valuations based on other models or different assumptions may yield different results. J.P. Morgan expressly disclaims any responsibility for (1) the accuracy of the models or estimates used in deriving the valuations, (2) any errors or omissions in computing or disseminating the valuations, and (3) any uses to which the valuations are put. Valuations are provided for information purposes only and are intended solely for your own use. Please refer to the trade confirmation for details of each transaction.

These statements are not official documents for income tax reporting purposes and should not be relied upon for such purposes, including determination of income, cost basis, amortization or accretion, or gain/loss. Such information, which may be inaccurate, incomplete or subject to updating, should be confirmed with your records and your tax advisor.

Important Information Regarding Auction Rate Securities (ARS). ARS are debt or preferred securities with an interest or dividend rate reset periodically in an auction. Although there may be daily, weekly and monthly resets, there is no guarantee that there will be liquidity. If there are not enough bids at an auction to redeem the securities available for sale, the result may be a failed auction. In the event of a failed auction, there is no assurance that a secondary market will develop or that the security will trade at par or any other price reflected on statements and online. Accordingly, investors should not rely on pricing information appearing in their statements or online with respect to ARS. Where J.P. Morgan was unable to obtain a price from an outside service for a particular ARS, the price column on your statement and online will indicate "\$0.00" which should not be relied on as the price at which ARS would trade.

The JPMorgan Funds or The JPMorgan Institutional Funds or The American Century Funds

Shares of the funds are not bank deposits and are not guaranteed by any bank, government entity, or the FDIC. Return and share price will fluctuate and redemption value may be more or less than original cost. While the money market funds seek to maintain a stable net asset value of \$1.00 per share, there is no assurance that they will continue to do so. The estimated annual income and dividend yield figures for mutual funds represent the funds' most recent income dividend annualized.

The distributor of the JPMorgan Funds is JPMorgan Distribution Services, Inc., which is an affiliate of JPMCB. JPMCB and its affiliates receive compensation from JPMorgan Funds for providing services. American Century Investment Services, Inc. is the distributor of the American Century Funds. American Century Investment Management Inc. serves as investment advisor to its respective fund family and receives compensation from that fund family for providing investment advisory and other services.

Shareholders of certain JPMorgan Funds are charged a redemption fee equal to 2% of the proceeds if they exchange or redeem shares of such funds within 60 days of purchase, subject to certain exceptions set forth in the prospectus of the applicable Fund. Please consult your J.P. Morgan representative for a list of the JPMorgan Funds that impose redemption fees.
