Important Information about Pricing and Valuations

Market value information (including without limitation, prices, exchange rates, accrued income and bond ratings) furnished herein has been obtained from sources that the Bank believes to be reliable and is furnished for the exclusive use of the client. The Bank makes no

representation, warranty or guarantee, express or implied, that any quoted value represents the actual terms at which transactions or securities could be bought or sold or new transactions could be entered into, or the actual terms on which existing transactions or securities

could be liquidated.

The current price is the value of the financial asset share, unit or contract as priced at the close of the market on the last day of the statement period or the last available price.

All values provided for structured yield deposits (for example, JPMorgan London Time Deposits) reflect the original deposit amount only.

The current value for Real Estate, Mineral Interests and Miscellaneous Assets may not reflect the most current value of the asset.

Valuations of over-the-counter derivative transactions, including certain derivatives-related deposit products, have been prepared on a mid-market basis. These valuations are indicative values as of the close of business of the date of this statement and, except as otherwise

agreed in writing, these valuations do not represent the actual terms at which transactions or securities could be bought or sold or new transactions could be entered into, or the actual terms on which existing transactions or securities could be liquidated as of the date of this

statement. We do not warrant their completeness or accuracy. These valuations are derived from proprietary models based upon well-recognized financial principles and we have, when necessary, to calculate the present value of future cash flows, made reasonable estimates

about relevant future market conditions. Valuations based on other models or different

assumptions may yield different results. Morgan expressly disclaims any responsibility for (1) the accuracy of the models or estimates used in deriving the valuations, (2) any errors or omissions in computing or disseminating the valuations, and (3) any uses to which the valuations are put. Valuations are provided for information purposes only and are intended solely for your own use. Please refer to the trade confirmation for details of each transaction.

At your request, assets may be reflected here in even though they are held by a third party unaffiliated with JPMorgan. In such case, unless JPMorgan otherwise agrees, JPMorgan has no responsibility for the verification, valuation, safekeeping or management of those assets.

Please review your statement promptly and report any discrepancies immediately to an account officer whose name appears on the contact page of this statement.

JPMSI is the custodian of listed options and most mutual funds, including third party mutual funds, purchased through JPMSI.

You should have received separate JPMSI confirmations for each securities transaction. All transactions are subject to the terms and conditions stated on the reverse side of such confirmations and are subject to the constitution, by-laws, customs and interpretations of the

marketplace where executed and governed by and construed in accordance with the laws of the State of New York and all applicable federal laws and regulations. Further information with respect to commissions and other charges related to the execution of transactions, including options transactions, has been included in confirmations that were previously furnished to you. Upon written request, JPMSI will promptly supply you with the latest such information.

Explanation of JPMSI Ratings:

Underweight:

Independent Research Ratings:

JPMorgan uses the following rating system:

Over the next six to twelve months, we expect this stock will outperform the average total return of the stocks in the analyst's (or the analyst's team's) coverage universe.

Over the next six to twelve months, we expect this stock will perform in line with the average total return of the stocks in the analyst's (or the analyst's team's) coverage universe.

Over the next six to twelve months, we expect this stock will under-perform the average total return of the stocks in the analyst's (or the analyst's team's) coverage universe.

JPMSI does not endorse or otherwise adopt the Independent Research Provider research and/or ratings. Different firms use a variety of ratings terms as well as different ratings systems to describe their recommendations. JPMSI uses a

"relative" ratings system as described above. IRPs may use a different ratings system, such as an "absolute" ratings system and use such terms as "buy", "hold", or "sell". Since "relative" and "absolute" ratings systems are fundamentally different, you should read carefully

the definitions of all ratings used in the JPMSI and IRP research that is included in the research itself. For this reason and since the research contains the basis for the ratings as well as complete information concerning the analyst's views, you should read carefully the

research and not infer its contents from the rating alone.
