Independent Research Ratings: JPMorgan does not endorse or otherwise adopt the Independent Research Provider research and/or ratings. Different firms use a variety of ratings terms, as well as different ratings systems to describe their recommendations. JPMorgan uses a relative ratings system as described above. IRPs may use a different ratings system, such as an absolute ratings system and use such terms as buy, hold, or sell. Since relative and absolute ratings systems are fundamentally different, you should read carefully the definitions of all ratings used in the JPMorgan and IRP research that is included in the research itself. For this reason, and since the research contains the basis for the ratings as well as complete information concerning the analysts' views, you should read carefully the research, and not infer its contents, from the rating alone.
