Subject: Fw: F090211509506 - financial trust company inc credit line increase request

Paul,

Client Services received a credit line increase request from client Darren K. Indydke. In short, Darren is the authorizing officer for the Financial Trust Company which the request is pertaining to. Client Services submitted a Special Consideration Form and received the following response from Alexander Jamieson (Priority Service Analyst for Chase):

Good morning Cory. Lending has reviewed this request and notes that due to the customer's current credit exposure of \$101,300, we will need an executive endorsement or have the customer agree to lower or close one of their existing 6 accounts to approve this credit line increase request.

If closing or lowering the credit line on an existing account, please send the account number indicating whether to close or amount to reduce in a reply to this e-mail and I will get the request processed.

If pursuing an executive endorsement we will need signatures by two people; one with a minimum B1 signing authority and the other a minimum B2 signing authority in the **Private Bank "optional executive endorsement" section** on the second page of the special consideration form (**including the "company", "branch cost center" and "endorsement amount" fields**) within the next 5 business days. Once completed, using a separate coversheet kindly fax it to my attention at 614-776-7744 and I will be happy to expedite your request once received.

Due to regulatory time frames this request must be completed by 2/19/09 after which, this application/request *may* be turned down and a letter sent out to the authorizing officer on the application.

Is there anyway you can assist us in processing the increase for the Financial Trust Company. Please advise. Thanks.

Additional Information:

Credit Limit Increase Account# 558 250 86330 17824

Business Name: Financial Trust Company, Inc

EIN# 66-0567418
