Good morning Cory. Lending has reviewed this request and notes that due to the customer's current credit exposure of $101,300, we will need an executive endorsement or have the customer agree to lower or close one of their existing 6 accounts to approve this credit line increase request.

If closing or lowering the credit line on an existing account, please send the account number indicating whether to close or amount to reduce in a reply to this e-mail and I will get the request processed.

If pursing an executive endorsement we will need signatures by two people; one with a minimum B1 signing authority and the other a minimum B2 signing authority in the **Private Bank** "optional executive endorsement" section on the second page of the special consideration form **(including the "company", "branch cost center" and "endorsement amount" fields)** within the next 5 business days. Once completed, using a separate coversheet kindly fax it to my attention at ███████ and I will be happy to expedite your request once received.

Due to regulatory time frames this request must be completed by 2/19/09 after which, this application/request *may* be turned down and a letter sent out to the authorizing officer on the application.

Thank you.

Alex L. Jamieson | **JP Morgan Chase Card Services** | **Priority Services Application Processing Group**
