Morning just getting back to DC. It was very formal and he had no data at the meeting to justify his numbers they were "guesstimates". Suppose to have his Witt OBrien people give me the data. They looked a little submissive during the meeting

Next step

05:22:51 pm

Everyone looks submissive next to you

05:23:22 pm

[REDACTED]

I think Mapp subdued them. They repeatedly wanted to say things upon my inquiry but were stopped by the interruption or Mapp's hand wave. Next step is to push for the necessary amount, galvanized voices to lobby, get support, make sure it has oversight from feds, take appropriate support and see from there
