NYU endovascular neurosurgery interview today.

Do you know frank langone by the way / looks like he endowed NYU medical school

Had my Harvard interview yesterday (chaos bc of marathon...) didn't love the Harvard program they are still a little behind the times.

12:20:53 pm

langone is odd. but if you need it. let me know

12:23:31 pm

Don't think so just curious he looks like a total gangster.

12:25:41 pm

Was thinking ...

Wouldn't it be amazing if could do an endovascular study on a plant?

A nanocatheter in the large vessels w a small LED at the tip and see if internal light activation works

12:26:56 pm

Both directions too

Does it help prolong lifespan or change microconditions for leaves and stems but also mostly can it affect root function

I think so

Family dispute
Need Culturally sensitive advice

Steve refusing to go to his nephew bar mitzvah

It's a very big deal to his family

Stuck in the middle
And getting it from
All sides

He needs to go.
