Should I try to get creative on compensation at bgc3 or just let them do whatever they want? Larry sent me their smart lawyer in case there was a tax benefit for me for a certain package or to see if bgc3 could bundle my salary and pay it to NYU or Harvard to train me as a fellow in endovascular (costs like 150k bc of malpractice insurance etc)

12:55:34 am

Larry says that bill has offered to be supportive however it makes sense to me. I just worry a bit about his wife if I do anything other than the standard.

12:56:15 am

Thought?
