Are you ok????
Bar mitzvah this weekend ...
01:21:18 pm

Florida will never be the same
01:21:33 pm

I wish you would have said " jeffrey , beware I was part of a serious investigation involving Kim. They decided after a few months that no [redacted] reg was violated . However lots of people and chatter . ". -result-Some very powerful people very very angry at jeffrey now
02:22:07 pm

I'm sorry! It didn't seem like a crisis to me. I was told over and over that it wasn't about ME. There were so many people and events and investigations of [redacted] over the 3 year term.
02:23:26 pm

Both the [redacted] and the [redacted] kept reminding me it wasn't about me. They asked me to live out of my secondment and assignment and even extended it.
02:24:20 pm

What I saw and lived did not feel like that. And I don't gossip or socialize so I have no idea on chatter. But I do know there is always chatter on [REDACTED] poor guy. No journalism media or legal issues with me or the [REDACTED], ever.

I'm so sorry they are angry at you! You did nothing wrong - I did nothing wrong. I guess that is politics.

02:27:17 pm

Oh Pumpkin. So sorry.

02:28:14 pm

Now that i am on the outside I'm learning [REDACTED] has a Lot of enemies - not all of them even care about him personally some care about what he stands for and/or [REDACTED]. It's a tough spot for anyone - and I noticed it goes up and down w big decisions and politics (like elections of USG, or his renomination, or IDA replenishment, or capital increase) but mostly he was off to a bad start w the reform bc it made ppl very angry. I'm happy to be out of the hot seat for sure.

Brains and plants way more fun to think about

Thank you again for standing by, thinking with me and supporting me in my professional quest always like always over almost 25 years holy cow.

02:34:15 pm

Ok back to work over here
Are you joining Caleb and Ed and I on the 26th MIT?

Ok first miami hilarious

We have to drive to the cemeteries to put rocks on graves (normal). By steves mother wants to dig up her deceased husband from his existing cemetery and move him because the cemetery is too far for her to visit. She'd like something within 5-10 minutes. "It's just not convenient, but it is my duty." Steve seems to think this is normal. "Good idea."

05:41:37 pm

From [REDACTED] mother (text). So entertaining.

Just in case the calendar of California is different, let me remind you that Sunday, May 14 is Mother's Day.

Was thinking about the retina as the light signaller to the brain. Like plant roots, light is bad usually.

Today we only use retina for "retinal" disease but maybe bc we don't understand signaling

It's too complex and amazing to only manage "sight" - for sure does sleep/wake cycles but found this 1991 interesting

Choroidal and retinal blood flow totally different. Hmm.

More. Amazing to think we might be missing something amazing here

Sympathetic connections to light. Wow

Another funny from steve today:

.....

I'm listening to people debate how the ice ball mold works at the bar. It is just a vacuum. I feel like screaming $PV=nRT$.

More / laugh out loud funny steve:

....

They are being so loud. They just found the perfect name for their new business.

FYI boyden

My apologies -- because of a major university initiative I'm helping with, it looks like institutional duties will force me to be on the west coast May 25 and 26. I am so sorry to have to reschedule, but I wonder if we might be able to find another time? I am very regretful for the change -- I just now got the notification.

Best,
Ed
