any one you know going. . thinking about the bill thing . I would never do anything mean to him. I would like to explain to him that he cannot treat you badly. after all these years. whether it be lake hangar or tennis courts. . If you feel comfortable. send me some of the emails that you described. . I would like to get a flavor of his thinking. You can send the automatic deleting type on Skype if you prefer.

re the alzheimers I would only present them things that you would be part of . the focus has to be on your next ten years not the foundations.

01:56:18 am

No one I know is going

01:56:23 am

I don't ever want to be mean to bill or have any gross interactions with him. The more his kids grow up the more sensible and patient I think he will become. Hope that's not too late.

i don't care about his kids ,

01:57:51 am

[REDACTED]

Im just saying that they are teaching him to be "better"

I'm sketching out the final recommendations I will make to them over the next 2 weeks and of course will share with you as I do

01:58:23 am

Some of them would be great for me to be involved in - they are very creative and tailored to Him bc I know how he thinks.

Larry wants to bring in a pharma guy to work at c3 to manage the work. Not keep me.

01:59:05 am

So any recommendations I make I have to do knowing that they may or may not take them but that for sure they have a person already to manage them that is not Mr

I believe if he is shown that he has been and is being unfair , in a direct way he will do the right thing. . gross interactions mean weird looking and sex talk. . not keeping you is NOT RIGHT you can go quietly into the night if you think right. do you feel comfortable sharing with me the emails. ?

02:00:13 am

[REDACTED]

My other option is to make stupid recommendations or general ones. Then larry and Melinda can say "see she's a yoyo". I'd prefer to do great work and hope they look favorably on me. But I can't control them.

02:00:36 am

No I don't feel comfortable sharing digital stuff - it doesn't ever disappear

02:01:10 am

MW

I can show you when we are together

02:01:16 am

It's mostly long emails about dates and times and his thoughts

In person we just have long meetings and interactions

02:01:43 am

Larry has already told me that I m making recommendations and then I have to leave - bill can maybe intervene

02:02:18 am

Dunno if he will

02:02:21 am

Let me first put together the recommendations.

02:02:29 am

We can discuss them and you can see what you think.

02:02:38 am
