(Deleted) I wanted to know what you think... you know there is an application Snapchat where you can post videos that appear for 24 hours for your friends and can be viewed only once, after they are being deleted and application fancentro that uses Snapchat to earn money. How it works is that girls register on fancentro as pornstars and open their account on Snapchat at the same time. On fancentro platform people can subscribe on these girls and they pay there to watch their stories on Snapchat. Yet these both platforms are not connected between themselves and often Snapchat does something that is bad for these girls, for example, bans them or lowers their views. Not they banned a lot of people. Yet on fancentro people can pay only in a certain way... they cannot use pay pal or send any extra gifts to these girls... so I was thinking is somebody made one application that allowed people to look through possible subscriptions and choose whom to follow in the same app as to watch their videos it would be beneficial for both sides. Extra to that all the pornstars use paxum card... because this is the only bank supporting porn business but very often there are problems with it and card doesn't work. I am not professional in banking industry but it is not possible to work out a bank that could work with porn industry? I mean on Snapchat people earn a lot of money...

banks are complicated structures

10:50:17 am

But an app where to subscribe for models? Because the application they use now is going down... something is changing.

(Deleted) Yes but that is cam, on Snapchat they can watch short videos of their daily lives and receive private videos when asked. As they get deleted within 24 hours and screenshots are forbidden it is very secure and private. But if I would like to make such app... how to start?

10:54:14 am

jeevacation

im not much help in the app space

10:54:35 am

sorry

I wanted to find somebody who would know more in this... but I guess I will have to look for investors. I just don't know if I should try to do more for this idea... but I think it would be profitable

(Deleted) I was calling to some companies that could help with making the application and it would cost 10000 eur and more. But I think this would be a good project... maybe I will try to write a detailed plan.

(Deleted) I know 🤖 today went to a consultation with IT company about my idea. They said it is 50 000-100 000 eur idea... and I have to look for investors. But I would really want to do it. Maybe I could do something for you and you could help me a bit? When it would work I would pay it back. What do you think?
