I think you can release any and all you received . Before they do  
12:00:36 am

Lawrence

The dean has written me a curt reply to my last email to him saying that the other investigation's complainant is the university and therefore the other university report will not be released to anyone. Just FYI.

12:02:32 am

L

but you are free to release .  
12:02:56 am

Lawrence

Thoughts on the piece, which has already changed, would be good over the next few days.

12:03:05 am

L

Again the dean said why don't you just read the rules  
12:03:09 am

Lawrence

Yes. That is a good point. (Not about the dean. Your earlier point. ). Re the dean. He was making it clear that one investigation went to outside complainant but the other has no complainant, which is interesting.

I think the photo should start the piece. Ask for sunshine. . that is strong. I thought that the ois said they didn't believe you photobombed it. Add looking the student up and down, talking about strip clubs. Show the drawing of the ass that you passed around. Make the point no student faculty member ever filed a complaint. A woman known for her hostility filed one against the wishes of the person actually involved.

12:06:10 am

Lucy hawkins a problem however

12:06:48 am

The letter states how disappointed and shocked that behavior over many years. . blah blah. I would also add the strange admonition that you didn't adequately supervise your director. Thought there were no complaints made by faculty, grievance committee will need to review.

12:08:27 am

o

Lawrence

Thanks. It now starts with the photo. More on that later.

Lucy is not a problem. What you don't know is that i can document that the conversation at the restaurant took place over a year before the discussion amongst us thinking about suggesting she come to asu happened.

12:08:32 am

L

And that giving her a hug and a peck on the cheek in greeting or leaving made for a hostile work environment

12:09:01 am

o

Lawrence

Yes. All in the appeal doc.

And university says Case demonstrates repeated pervasive behavior but what you don't know is I can document that dean and gc net with me on December, learned the details of case thing and declared that it was ridiculous overreaction and unwarranted. Now they are using it to the contrary to their advantage.

List one silliness after another. With the language that states, I ask the public to make their own judgment. I won't characterize it, at the moment, in order to present an unbiased fact airing. YOU DECIDE! Should be the mantra

12:11:05 am

Case is a problem. ! your apology to video wacko is a problem. But I think lead with the photo and list silly after silly, Lucy, case, dont argue facts. You will lose

12:12:35 am

Recall their position is that you are currently unable to teach given your bad reputation. Its strong

12:13:09 am

Lawrence

Thanks. No evidence by the way of bad reputation in university or without btw.

12:13:50 am

All useful. More later.

12:14:05 am

L

Case and perimeter. Get real

12:14:23 am

Lawrence

More on that later. Case gave me several counter offers after I came to asu.

12:14:58 am

Facts

12:33:01 am

Arguments not relevant

12:33:35 am

The finder of fact heard both sides and did not believe you. That a problem

12:34:21 am

Lawrence

Yes.

About to do barbecue for guests.

12:35:24 am

Ok foot note 2 says his did not believe the photo was photobombed .

12:36:25 am

OIS

12:36:29 am

Lawrence

Yes but the point is that the OEI, which wrote the investigative report did think so. The investigators concluded that photo was a violation of some policy. That the provost didn't buy it doesn't change the fact that OEI is stupid and biased.
