If the foundation is dicking you or black around please ask them for an audit.

10:29:22 pm

There was over 1.2 million left in foundation Acct after bills for hotel etc done.

Financial improprieties or something they should be very sensitive to being brought public. I'm surprised. I think the point is to not lie down for them don't you agree? Regardless of the outcome. As long as it doesn't cost anyone else money but them.

No. After you retire. Maybe. . head down until then

I can certainly understand that argument. As long of course as waiting that long does not preclude any action at that time.

10:52:10 pm

Moreover I see nothing wrong with the other donors asking for an audit if they get dicked around. I appreciate the need for you to keep a low profile right now and I want to do everything I can to protect that. But the other donors should make a lot of noise. And right now the university should be terrified of any kind of legal proceeding. Certainly any financial improprieties would be disastrous. But more than that Every university in the country almost is being hit with lawsuits on the basis of their withholding rates and due process. If this were to blow up again for Asu at this time, they would look pretty bad.

Hi. You read my mind. Was about to text. It was great. Woody is doing very well. Not letting this bother him. And he will do my new podcast.

Thanks so much for the apt. Was great. On the way to LaGuardia now.

Had productive two days. Talked to 2 possible donors for the foundation and Trevor Nunn and I met with Kevin Kinsella and Trevor and I will continue to pursue the one man show option.

Sorry I didn't get to see you though.
