Did you ever speak with thornborn? Keep on top of Kim and lawyers.
01:10:16 pm

Terje

Yes I did. He says he has not seen any calls from you, but he does not answer "anonymous", so that is the reason. He wants to come to the UN High Level week in September. He needs two bedrooms. Space in your apartment building? Kim is following up Morits. He sent Morits email during the weekend. The deadline is 27 July. Kim informed that the 14 is in their account and ready to go, but he needs documentation from Morits that the collaterals are gone. He will follow up from his holiday break.
Where are you?

I will check. He is very clumsy with emails, even worse than me! SMS is better, but he is not Good at that either. I always SMS Hanne, and ask her to tell him to call me!(She is, as most Women, a great fan of yours!) They are now on vacation in Risør in the South of Norway.

Waiting for message from Kim. He is working on it. Just sent me a message. Terrible weather in Athens. 50 people got killed in wildfires. Stayed at the airport until one thirty in the morning, then the flight was cancelled. Next flight is 8 in the evening. Horrible! But meeting here went very well.

Camilla sending you now reports on email. They are very comprehensive, and we did everything we had indicated and more. Problem was he did not want to be visible and participate. So for instance when we shaped the annual Salzburg seminar last year, he came to Salzburg but did not want to go to the event. We are doing the same this year. Invitations had to go out months ago (it is in September), and when I discovered he could not provide the funds I have to cover costs from IPI's general budget. We cannot cancel at this stage, etc, etc, etc....
